Community Plan

4All
FOUNDATION

Working today to protect tomorrow

Marches Academy Trust is committed to creating schools of the future that promotes learning for life by ensuring we deliver our Trust core values of excellence, equality, integrity, empathy and creativity in everything that we do. An important part of this pivotal role includes the way we engage with our communities to ensure a sustainable, ethical and inclusive future.

Our Trust recognise it is critical to deliver inclusive education, sustainable environments and healthy spaces for all of our children and young people, staff and communities whilst minimising our impact on the environment and protecting the future of our planet.

We embrace our social obligation and recognise that as global citizens, we have a moral responsibility to contribute to the wellbeing of our environment and wider society. As such our Trust seeks to actively make socially responsible decisions in all it does so that together we can grow.

Marches Academy Trust

Our Goals

01

Strengthen community engagement and belonging

Goal: Increase community participation and create a stronger sense of belonging for children, families, and residents.

02

Improve Multi-Agency Collaboration and Early Intervention

Goal: Create a coordinated approach between schools, community organisations, health services, and external agencies to support vulnerable families.

03

Raise Aspirations, Skills and Opportunities for Young People

Goal: Broaden educational, vocational and employment opportunities to improve aspirations and life chances.

04

Enhance Community Safety and Wellbeing

Goal: Work with partners to reduce barriers caused by deprivation, exploitation, crime and social isolation.

4 All Foundation

The Marches Academy Trust set up an independent, registered charity, 4 All Foundation in July 2023.

The Foundation is dedicated to delivering local, accessible activities, projects and initiatives to support the needs and aspirations of communities across Shropshire and Telford and Wrekin. As a multi-academy sponsor in Shropshire, the Marches Academy Trust is committed to empowering individuals within its network and neighbouring communities, fostering values of Achievement Through Caring to help everyone realise their full potential.

Supporting the local community

The 4 All Foundation began operating as a community organisation in 2022 and registered with the Charity Commission, as a Charitable Incorporated Organisation (CIO), in June 2023 (Registered Charity number 1203479). The 4 All Foundation was founded by the Marches Academy Trust, with the aim of supporting those living in the communities where the Trust schools are located. The 4 All Foundation carries out its charitable purposes supporting children, young people, adults, and older residents in Shropshire and the surrounding counties, to reach their full potential.

The Foundation responds to the needs of those in the community by working in partnership with local councils (Shropshire Council and Telford and Wrekin Council), other charities, and education providers, and by communicating directly with the local community.

The work of the charity is delivered through local community hubs, in partnership with local councils and through outreach work within the community, in high need areas.
